APTL HEMATOLOGY UPDATE

📍 Hyatt Place, Hyderabad 📅 23rd & 24th August 2025

Welcome

Welcome back, everyone. In our first APTL Hematology meeting held on 21st March 2025, clinicians from across Andhra Pradesh and Telangana came together and unanimously agreed to work toward forming a regional hematology association. Key discussions included the need for a clinician-led platform, collaboration opportunities with existing groups, and incorporating academic activities like journal clubs and case discussions. We also explored important treatment topics to treat various hematological malignancies.

We also discussed rotating leadership, active involvement from both senior and young members, and collecting consent from interested participants. Suggestions were made to begin regular meetings in Hyderabad to foster continuity and engagement. A feedback survey was circulated post-meeting to gather inputs on structure and membership. The upcoming steps include exploring registration logistics and finalizing the association's academic direction. Each meeting will cover clinical updates, project developments, journal clubs, and medico-legal discussions. Additionally, we plan to host the APTL Hematology Update once every three months.

APTL HEMATOLOGY UPDATE

📍 Hyatt Place, Hyderabad 📅 23rd & 24th August 2025

Invitation to the APTL August 2025 update

We are delighted to extend a warm invitation to APTL Hematology August meeting'25, scheduled to be held on 23rd August Saturday & 24th August at Hotel Hyatt Place, Banjara Hills, Hyderabad. This prestigious event will bring together leading experts, researchers and practitioners from around the country to explore the latest advancements and breakthroughs in hematology.

Building upon the success of previous conferences worldwide, this year's event promises a comprehensive program featuring cutting-edge research, clinical insights, and interactive sessions aimed at fostering collaboration and innovation in hematology. Attendees can expect to engage with thought-provoking discussions on emerging therapies, diagnostic techniques, and management strategies in hematologic disorders.

Join us in Hyderabad, a city renowned for its cultural heritage and vibrant academic environment, as we delve into the forefront of hematology research and practice. Whether you are a seasoned professional or a budding researcher, Hematology Conference 2025 offers a unique platform to exchange knowledge, network with peers, and contribute to shaping the future of hematology.

We look forward to welcoming you to this enriching and impactful gathering.

Regards
APTL Hematology organising committee
